Awards & Rankings - General Disclosure Statement

Third-party rankings and recognition from ratings services, or publications, are no guarantee of future investment success. Working with a highly-rated adviser does not ensure that a client or prospective client will experience a higher level of performance or results. These ratings should not be construed as an endorsement of the adviser by any client nor are they representative of any one client's evaluation. Generally, ratings, rankings, and recognition are based on information prepared and submitted by the adviser. Each reprint or e-print has its own unique disclosure related to the criteria and requirements for receiving such award and it is important for clients to understand this when evaluating Weatherly. Questions regarding these disclosures can be directed to Carolyn Taylor by phone (858) 259-4507 or email Carolyn@weatherlyassetmgt.com.

Although Weatherly Asset Management, and its advisors, do not pay fees for awards or rankings, there are instances where Weatherly will pay for reprints or advertising after receiving recognition. This represents a conflict of interest for the firm issuing the award or ranking, however, Weatherly believes the awards and rankings advertised are bona fide.

⁴³2019 Forbes Best-In-State Wealth Advisors – Shook Research

August of 2018, Carolyn Taylor and Candise Holmlund were nominated for Shook Research's 2019 Best-in-State Wealth Advisors list. Both were invited to complete an online survey detailing information about their careers as well as Weatherly as a firm. Carolyn was named 4th out of the 55 named from Southern California. In total, the list showcased over 3,000 wealth managers. The list was published on February 20th, 2019 on Forbes.com. The 2019 Forbes ranking of Best-In-State Wealth Advisors, developed by SHOOK Research, is based on an algorithm of qualitative criteria, mostly gained through telephone and in-person due diligence interviews, and quantitative data. The ranking algorithm is designed to fairly compare the business practices of a large group of advisors based on quantitative and qualitative elements. Data are weighted to ensure priorities are given to dynamics such as preferred "best practices", business models, recent business activity, etc. Each variable is graded and represents a certain value for each measured component. These data are fed into an algorithm that measures thousands of advisors against each other. The algorithm weighted factors including revenue trends, assets under management, compliance records, industry experience and those advisors that encompass best practices in their practices and approach to working with clients. Portfolio performance is not a criteria due to varying client objectives and lack of audited data. Neither Forbes or SHOOK receive a fee in exchange for rankings. Basic Requirements to be considered for the "Forbes Best-in-State Wealth Advisors" included: 1) 7 years as an advisor; 2) minimum 1 year at current firm 3) advisor must be recommended, and nominated, by Firm, 4) completion of online survey; 5) over 50% of revenue/production must be with individuals; and 6) an acceptable compliance record. In addition to the above basic requirements, advisors were also judged on the following quantitative figures: 1) revenue/production; weightings assigned for each; 2) assets under management—and quality of those assets—both custodied and a scrutinized look at assets held away. (Although individual numbers are used for ranking purposes, the ranking publishes the entire team's assets); 3) client-related data (ie retention.) NOTE: Portfolio performance was not considered - audited returns among advisors are rare, and differing client objectives provide varying returns. Qualitative considerations examined included but were not limited to: 1) telephone and in-person meetings with advisors; 2) advisors exhibiting "best practices" within their practices and approach to working with clients and 3) advisors that provide a full client experience (factors examined include service model, investing processes, fee structure (higher % of fee-based assets earns more points,) and breadth of services, including extensive use of Firm's platform and resources; 4) credentials (years of service can serve as proxy); 5) use of team & team dynamics; 6) community involvement; 7) discussions with management, peers, competing peers, and 8) telephone and in-person meetings. Compliance records and U4s were also reviewed in detail as part of the selection process including: 1) infractions denied or closed with no action; 2) complaints that arose from a product, service or advice initiated by a previous advisor or another member or former member of team; 3) length of time since complaint; 4) complaints related to product failure not related to investment advice; 5) complaints that have been settled to appease a client who remained with the advisor for at least one year following settlement date; 6) complaints that were proven to be meritless; and 6) actions taken as a result of administrative error or failure by firm. Weatherly Asset Management did not pay any fees to SHOOK to be nominated or included in the "Forbes Best-In-State Wealth Advisors" list and Weatherly was not required to advertise in, or subscribe to, Forbes. As of the time of this disclosure, Weatherly did not elect to pay for reprints of the list. In total, 29,334 nominations were received and 5,961 advisors were invited to complete the online survey. Throughout the

¹⁶2008-Wealth Manager

Weatherly Asset Management, L.P. was included in Bloomberg Wealth Manager's Eighth Annual ranking of Top Wealth Managers. The ranking of leading financial advisory firms list consisted of 478 spots and was based on asset value of the average client relationship as of December 31, 2007. Weatherly was ranked number 289 out of 478 firms in the July/August, 2008 issue. The process for the Wealth Manager 2008 rankings was very much the same as it had been in previous surveys. The data was self-reported based on a firm's Form ADV. All numbers in the survey were as of December 31, 2007. Participants were ranked according to average AUM per client. Firms had to be registered investment advisors with their own IARD/CR numbers. Additionally, 50 percent of each firm's client base had to fit the SEC's definition for individuals or high-net worth individuals. Trust companies, banks and broker-dealers were not eligible. The average AUM per client was calculated as the firm's total AUM divided by the number of client relationships. The Total AUM was defined by Wealth Manager as the firm's assets under management- both discretionary and non-discretionary as defined by Form ADV, plus other assets not reported on Form ADV for which an advisory or management fee is charged. Commission assets, including brokerage account assets and any assets on which the firm received an immediate or ongoing service commission or trail, were not included in the Total AUM calculation. Client relationships were the total number of clients—not accounts, as many clients have multiple accounts under advisement. Married couples were counted as one client, while their children, if adults, were counted separately. The number of professionals and support personnel varied somewhat from firm to firm. Some limited this to financial professionals only, and others included non-financial staff members with other expertise. No payment was required for nomination or inclusion in the ranking. Weatherly paid a third party for reprints, as well as webLink permissions. No organizational memberships were required of the Firm or individuals. Ranking on this list is not representative of any one client's experience and is not indicative of Weatherly's future performance. Weatherly is not aware of any facts that would call into question the validity of the ranking or the appropriateness of advertising inclusion in this list.

⁶2008-Worth

Worth's annual Top Wealth Advisor November, 2008 issue included Weatherly Asset Management and President, Carolyn Taylor in the 2008 Top 250 list of advisors. By identifying advisors based on their dedication and expertise in the industry, Worth compiles their annual lists to reflect geographical diversity and professional excellence. The list generation process began with an invitation to Worth's readers to nominate those advisors who represent the absolute best of their profession. Worth also solicited nominations from banks, wealth management and investment firms, and industry associations. Nominated advisors and others who wished to participate then completed a detailed online questionnaire in which they provide their education and professional credentials and discuss their approaches to customer service, portfolio management and risk. Data also included firm assets, largest client's net worth, median client net worth, minimum assets for new client. Worth's selections are based on the quality of the responses and the applicants' insights into the current investment climate. Following the completion of a preliminary list, the final step involved confirming, to the extent possible, that the information the advisors provided was accurate and truthful. The criteria for ranking was based on firm assets, largest client's net worth, median client net worth, and minimum assets for new clients. The list was ranked by state, and then alphabetically by Advisor's last names. Weatherly was contacted by Worth for consideration in the list. No payment was required to be considered for or included in the published list. Weatherly provided data to Worth in response to the survey request. Weatherly paid a third party for associated reprints and e-print privileges. No organizational memberships were required of the Firm or individuals. Weatherly Asset Management, L.P. was included in Bloomberg Wealth Manager's Seventh Annual ranking of Top Wealth Managers. The ranking of leading financial advisory firms list consisted of 464 spots and was based on asset value of the average client relationship as of December 31, 2006. Weatherly was ranked number 261 out of 464 firms in the July/August, 2007 issue. WealthManager's methodology for collecting and organizing the data for the 2007 ranking was virtually unchanged from previous years. Firms were ranked by average AUM per client. Firms had to be registered investment advisors with their own IARD/CRD numbers. Half of their clients must have been individuals or high-net-worth individuals as defined by the SEC. The firms were also required to offer financial planning services. Banks, broker/dealers and trust companies were not eligible. Definitions are as follows - Total AUM: This figure included discretionary and non-discretionary assets under management as defined by Form ADV, plus various other assets not reported on Form ADV for which firms received a management or advisement fee. Excluded from this column were commission products, broker account assets and any assets for which firms received a trail or ongoing service commission. Client Relationships: This is the total number of clients—not accounts, as many clients have multiple accounts under advisement. Married couples were listed as one client, and children in multigenerational client families were counted as separate clients if they were adults. Average AUM per Client: This is the total AUM divided by the number of client relationships. Minimum Annual Fee per Client/Minimum AUM per Client: Many firms required no minimums for one or both of these categories. Many others listed numbers but indicated that minimums in either category were negotiable. Number of Professionals/Number of Support Personnel: Definitions varied somewhat from firm to firm. Some firms considered only personnel with relevant licenses or designations as professionals. Other firms also included staff members with managerial responsibility outside the financial area, such as a marketing director. Some firms used part-time staff, but for simplicity all personnel entries have been rounded to the nearest whole number. No payment was required for nomination or inclusion in the ranking. Weatherly paid a third party for reprints. No organizational memberships were required of the Firm or individuals. Ranking on this list is not representative of any one client's experience and is not indicative of Weatherly's future performance. ¹⁴2006-Wealth Manager

Weatherly Asset Management, L.P. was included in Bloomberg Wealth Manager's Sixth Annual ranking of Top Wealth Managers. The ranking of leading financial advisory firms list consisted of 500 spots and was based on asset value of the average client relationship as of December 31, 2005. Weatherly was ranked number 289 out of more than 400 firms in the July/August 2006 issue. Wealth Manager's "methodology for collecting and organizing the material for the 2006 ranking was virtually unchanged from the 2005* methodology". Participating firms had to be registered investment advisors with their own IARD/CRD numbers. Half of their clients had to be individuals or high-net-worth individuals as defined by the SEC. The firms had to offer financial planning services. Banks, broker-dealers and trust companies were not eligible. Firms included discretionary and nondiscretionary assets under management, plus various other assets not reported on Form ADV for which they received a management or advisement fee. Excluded from the AUM calculation were commission products, broker account assets, and any assets for which firms received a trail or ongoing service commission. The ranking was determined by dividing this final AUM figure by the number of client relationships reported. *Methodology from 2005: The asset value of the average client relationship was calculated by dividing the total client assets under management (including assets under management reported on Form ADV plus additional client assets not reported on Form ADV for which the firm received a management or advisement fee) by the total number of client relationships. In a few instances, the value of client relationships for firms listed consecutively was the same because of rounding. Their rank order in the tables reflected their relative value when the division was carried out to additional decimal places. In some cases, marked with daggers, the underlying values were exactly the same, and these firms were ranked alphabetically. Assets under management and average assets per employee were handled in a similar manner. The data used for this ranking was taken from a questionnaire sent to firms and from data that those firms provided to the Securities and Exchange Commission on Form ADV. Firms were identified through BLOOMBERG WEALTH MANAGER's database and from other industry sources. To qualify for the ranking, firms had to meet the following criteria: They were registered investment advisors with the SEC; they had a minimum assets under advisement of \$50 million; more than 50 percent of the firm's client base consisted of "individuals" or "high-net-worth individuals" as defined by the SEC; the firms also offered financial-planning services. Not included in the ranking were banks, broker-dealers, and trust companies. Also excluded were firms that were branches of independent broker-dealers and those not operating as separate businesses with their own identities. Subsidiaries of larger companies were included, provided they met all the above-listed requirements and filed their own Form ADVs with the SEC. The 35 subsidiaries on the list were identified with an asterisk. The 500 firms on the ranking were categorized by size of assets under management, as follows: \$1 billion or more, 40; \$750 million to less than \$1 billion, 23; \$500 million to less than \$750 million, 43; \$250 million to less than \$500 million, 101; \$100 million to less than \$250 million, 180; \$100 million or less, 113. No payment was required for nomination or inclusion in the ranking. Weatherly paid a third party for reprints, as well as webLink permissions. No organizational memberships were required of the Firm or individuals. Ranking on this list is not representative of any one client's experience and is not indicative of Weatherly's future performance. Weatherly is not aware of any facts that would call into question the validity of the ranking or the appropriateness of advertising inclusion in this list.

¹³2005-Wealth Manager

Weatherly Asset Management, L.P. was included in Bloomberg Wealth Manager's Top Wealth Managers Annual Ranking in the July/August, 2005 issue. The ranking of leading financial advisory firms consisted of 500 spots and was based on asset value of the average client relationship as of December 31, 2004. Weatherly was ranked number 372. The asset value of the average client relationship was calculated by dividing the total client assets under management (including assets under management reported on Form ADV plus additional client assets not reported on Form ADV for which the firm received a management or advisement fee) by the total number of client relationships. ³2004-Worth

Weatherly Asset Management, L.P. was included in Worth's "The Nation's 100 Most Exclusive Wealth Advisors" list in the October, 2004 issue. The 100 firms are listed alphabetically by state, and then alphabetically by business name. In selecting the 100 Most Exclusive Wealth Advisors for 2004, Worth editors asked readers to nominate those advisors who possess this superior ability- along with a host of other desired qualities. Editors extended this request to private banks, wealth management and investment firms and other industry associations as well. Nominated advisors completed an extensive survey in which they listed their educational credentials, compensation structure, client retention rate, outlook on the investment climate and model portfolio returns. They also answered questions about their professional histories and whether they have been involved in any legal or disciplinary matters. Worth's editorial staff selected about the daunting task of selecting the 100 Most Exclusive Wealth Advisors from a pool of several hundred candidates. At the top of the list of criteria that define superior wealth advisors are professional designations, which often evidence a higher level of knowledge and professional commitment. All credentials and designations were verified, and nominee backgrounds were checked using the LexisNexis legal database to search court and arbitration records with the National Association of Securities Dealers. Additional criteria evaluated included years of professional experience, client portfolio performance for 2003, insight into the current investment climate, and client feedback. Weatherly provided the names and contact information for three of its current clients, as requested by Worth. No payment was required for nomination or inclusion in the list. After receiving notice of inclusion in the list, Weatherly paid Worth for reprints. No organizational memberships were required of the Firm or individuals. Inclusion in this list is not representative of any one client's experience and is not indicative of Weatherly's future performance. ¹²2004-Wealth Manager

Weatherly was ranked number 317 of 450 investment advisors on Bloomberg's Wealth Manager Magazine's Top Wealth Managers Fourth Annual Ranking in the July/August, 2004 issue. The criteria for the ranking of registered investment advisors included average client relationship size and assets under management. The methodology for BLOOMBERG WEALTH MANAGER's fourth annual ranking of leading independent financial-advisory firms was based on the asset value of the average client relationship as of December 31, 2003. The list had 450 firms, listed in the "Champions" table beginning on page 70 of the July/August 2004 issue. The asset value of the average client relationship

Appendix B to Part B of Form ADV 2 Dated September, 2019

was calculated by dividing the total client assets under management (including assets under management reported on Form ADV plus additional client assets not reported on Form ADV for which the firm received a management fee or advisement fee) by the total number of client relationships. In certain instances, the value of the average client relationships for firms listed consecutively was the same because of rounding. Their rank order in the table reflects their relative value when the division was carried out to additional decimal places. In a few cases, marked with asterisks, the underlying values were exactly the same, and those firms were ranked alphabetically. The data used for this ranking was taken from a questionnaire sent to participating firms and from data that firms provided to the Securities and Exchange Commission on Form ADV. Participants were identified through BLOOMBERG WEALTH MANAGER's database and from other industry sources. To qualify for the ranking, firms had to meet the following criteria: They were registered investment advisers with the SEC. • They had minimum assets under management of \$50 million. • The firms must also offer financial planning services. • More than 50 percent of the firm's client base must consist of "individuals" or "high-net-worth individuals" as defined by the SEC. Not included in the ranking are banks, broker-dealers, trust companies, insurance companies, and firms that are subsidiaries of larger companies. Also excluded are firms that are branches of independent broker dealers and those not operating as separate businesses with their own identities. A new listing of firms that would otherwise qualify for the ranking except for the fact that they are subsidiaries of large organizations was presented in "Medalists" on page 84 of the July/August 2004 issue. The universe of 450 firms was categorized by size of assets under management, as follows: \$500 million or more, 72; \$200 million to \$499 million, 115; \$100 million to \$199 million, 135; \$50 million to \$99 million, 128. No payment was required for nomination or inclusion in the ranking. After receiving notice of the award, Weatherly paid a third party for reprints. No organizational memberships were required of the Firm or individuals. Ranking on this list is not representative of any one client's experience and is not indicative of Weatherly's future performance. Weatherly is not aware of any facts that would call into question the validity of the ranking or the appropriateness of advertising inclusion in this list.

¹¹2003-Wealth Manager

Weatherly was included in a list of investment advisers on Bloomberg's Top Wealth Managers Annual Ranking. The original ranking in the July/August, 2003 issue list consisted of 370 slots*. The criteria for the ranking of registered investment advisers included average client relationship size and assets under management. Firms were ranked by average client account size. The methodology for BLOOMBERG WEALTH MANAGER's annual ranking of leading independent financial-advisory firms was based on the average client-account size for the year ending December 31, 2002. The average client-account size was calculated by dividing the total client assets (which include assets under management filed on the Form ADV plus additional client assets that were not reported on the filing) by the total number of client relationships. The data used for this ranking was taken from a questionnaire sent to participating firms and from data provided to the Securities and Exchange Commission on Form ADV. Participants were identified through WEALTH MANAGER's database and from other industry sources. Firms that were listed meet the following criteria: Were registered investment advisers; Stated minimum assets under management of \$25 million; Indicated on the Form ADV that financial-planning services are offered; Reported on the WEALTH MANAGER questionnaire that comprehensive financial-planning services are provided either in house or via outsourcing; Declared that more than 50 percent of the client base; consisted of "individuals" or "high-net-worth individuals" as defined by the SEC. Because WEALTH MANAGER wanted independent advisory firms, they eliminated responses from banks, broker-dealers, trust companies, insurance companies, and their affiliates. Also, firms that are branches of independent broker-dealers were excluded, as were those not operating as separate businesses with their own identities. In cases where firms reported a higher number of client relationships than client accounts, they used the number of client accounts as the divisor to calculate the average account size. The universe of 370* firms was categorized by size of assets under management as follows: \$200 million or more, 97; \$100 million to \$199 million, 84; \$50 million to \$99 million, 115; \$25 million to \$49 million, 74. *The publication ran an update in the January, 2004 issue stating: "Our ranking of Bloomberg's Top Wealth Managers published in the July/August 2003 issue incorrectly reported the average client-account size for three firms. [Corrected figures for 3 firms provided]. In addition, the ranking left out 26 firms that should have been included. In many cases, the firms were dropped inadvertently because of inconsistencies between data items on our ranking questionnaires and those on the firms' Form ADVs. These firms are listed below." Weatherly was included on this list of 26 firms, which was sorted alphabetically by business name. No payment was required for nomination or inclusion in the ranking. No organizational memberships were required of the Firm or individuals. Ranking on this list is not representative of any one client's experience and is not indicative of Weatherly's future performance. Weatherly is not aware of any facts that would call into question the validity of the ranking or the appropriateness of advertising inclusion in this list.

²2002-Worth

Weatherly Asset Management, L.P. was included in Worth's "The 250 Best Financial Advisors" list in the July/August 2002 issue. The 250 firms are listed alphabetically by state, and then alphabetically by business name. For consideration to be included in the list, Worth Magazine started by accepting nominations from readers, industry associations, investment firms, and the advisers in their database. Candidates were asked to complete an extensive survey detailing their backgrounds, professional designations, client-retention rates, and average portfolio returns. Candidates were also asked to provide their best ideas about wealth management, which were then studied carefully in the consideration process. Advisers in the running submitted a sample financial plan and two letters of recommendation. Registered investment advisers also supplied their Form ADVs, which describe their services, fee structures, and disciplinary histories (this is a document that any prospective client should review). Worth verified designations with industry associations and checked backgrounds using the Lexis legal database to search court records. No payment was required for nomination or inclusion in the list. After receiving notice of inclusion in the list, Weatherly paid Worth for reprints. No organizational memberships were required of the Firm or individuals. ¹2001-Worth

Weatherly Asset Management, L.P. was included in Worth Magazine's 2001 list of 250 Best Financial Advisors. The list is organized by state, and then alphabetically by Advisor's last name. Worth Magazine evaluated nominees from a vast pool of new recommendations and past members of their list. Candidates were required to complete an extensive questionnaire detailing their credentials, professional distinctions, and compensation structures. The nominees also submitted a financial plan and a letter of recommendation from a client or professional peer outside their firm. Worth reviewed all of the data from the client's perspective: each submission was reviewed for clarity, completeness, and attention to individual needs. Nominees were also asked to provide their best ideas and recommendations. Worth then checked nominees' backgrounds. Registered investment advisers were required to provide their Form ADVs, which describe the firms' services and fee structures and the advisers' qualifications (this is a great resource that all advisers should be willing to share with their clients). Worth verified credentials and made inquiries with industry associations, local courts, and the Lexis Nexis legal database. All advisers on the list were able to take on new clients. No payment was required for nomination or inclusion in the list. After notification of inclusion in the list, Weatherly paid Worth for reprints.
